

all panels of 1/2 or 3/8 plywood  
(other sizes may do)

1x4" ex. e

\* CAUTION - Be sure there is ample space between light bulbs and presser  
Start with 150 watt bulbs but you may have to go higher - consider heat lamps  
Do not allow straps from the presser to hang over the bulbs!

when drying, block off open area so the warm air is oriented through the panels

low-cost plant dryer
